Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image quality analysis system for an image output device comprising an image quality analysis module that receives the digital raster image, distinguishes one or more test targets from the digital raster image, and performs image quality analysis on the test targets to obtain results quantifying image quality, wherein the image quality analysis module includes a human visual filter that filters the test targets so that the test targets are similar in resolution to that perceivable by a human visual system and wherein the image quality analysis module identifies image quality deviations that correlate with image quality deviations perceivable by a human observer as claimed in claim 1. Similar features are claimed in claims 12, 23, and 25. Therefore, claims 12, 23, and 25 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
